About Us

As a manufacturer, the company takes pride in designing and producing cutting-edge harvesting and threshing equipment that caters to the diverse needs of modern farmers. The machinery is built with precision engineering, incorporating the latest technological advancements to ensure optimal performance, durability, and cost-effectiveness. AAI Veer is dedicated to providing farmers with reliable solutions that streamline the harvesting and threshing processes, ultimately contributing to increased yields and profitability.

In addition to manufacturing, AAI Veer serves as a prominent trader, sourcing and distributing a comprehensive range of agricultural machinery from reputable suppliers. By offering a diverse portfolio of products, the company ensures that farmers have access to a wide selection of high-quality equipment to suit their specific requirements. The trading arm of AAI Veer is characterized by its commitment to delivering top-notch products and fostering strong relationships with both suppliers and customers.

Our Mission

At AAI Veer, our mission is to revolutionize the agricultural landscape by providing cutting-edge harvesting and threshing machinery that enhances efficiency, productivity, and sustainability for farmers worldwide. We are committed to designing and manufacturing high-quality, reliable equipment that meets the evolving needs of modern agriculture while prioritizing environmental stewardship and the well-being of farming communities.

Our Vission

AAI Veer envisions a future where agriculture is powered by innovative, technologically advanced machinery that transforms the way crops are harvested and threshed. We strive to be a global leader in the manufacturing, trading, and retailing of harvesting equipment, known for our commitment to excellence, customer satisfaction, and contribution to the sustainable development of agriculture. Our vision is to empower farmers with the tools they need to thrive.

VEER TRACK HARVESTOR

- The Veer Track Harvester has revolutionized mechanized rice harvesting. The compact design and Heavy light make for good maneuverability in small fields. Reliable rubber tracks are ideal for rice paddies. As well as making harvesting quick and easy, the Veer Harvester Track delivers excellent grain quality and negligible losses.
- This Track harvester is ideal for harvesting paddy, wheat, sunflower, grams, pulses, soya beans, etc. It also shows an immense performance in a paddy field by offering a harvesting rate of 1 acre per 40-50 mints. capacity. The advance system built and integrated into this brilliant equipment contains an axle flow design. The effective cutting rate and accumulation of the harvested grain decrease the rate of spoilage to a minimum.
- We are a pioneer in the manufacturing of excellent quality of Track harvesters at an affordable price with the specifications

UOM		RUBBER CRAWLER	
Name	Veer Track Harvester	Size (mm)	500-90-56
Model	VR-HR77	Track Guage (mm)	1250
Material	MS & Alloy Steel	Rotor Threshing & Sparating Drum Diameter (mm)	665mm x 1900mm
TECHNICAL SPECIFICATIONS		CLEANING MECHANISM	
Dimension (LxWxH)	5100x2700x2700 (Canopy in stored position)	Type	Air & Screen Cleaning Device
Weight	3550 kg approx	Seive Cleaning Area (M ²)	1.0
Cutting Width	2.3 m	Fuel Consumption	7-9 l/hr
Feeding Capacity	4.0	TRACK AAI VEER	
Operation Speed	1.0 - 1.2	No. of Grousers Width of Track (mm)	500
Productivity	Acres 05-10/Day	Length of track on the ground (mm)	1800
GROUND DRIVE		CAPACITIES AND WEIGHT	
Fully Hydrostatic Speed Range	Gear Drive With HST45cc	Grain Tank Capacity m ³	1.2m ³
Cutter Mechanism & Threshing mechanism	Belt Driven	Fuel Tank Capacity Ltr	100 Ltr
		Crops	Paddy

FEATURES & HIGHLIGHTS

High Ground Clearance Very Low Cutting Height Coated Body Paint for Long life Stainless Steel Floor Heavy Duty double Reel Clear Separation No Grain Breakage
